PRO CUT 210 | 240 | 280

The Procut mowers are available in three different cutting widths. What really makes the Malone mower a cut above the rest is the heavy duty galvanised frame, ensuring the long life of your machine and the multi banded belt prevents slipping and means that constant power is transmitted to the cutter bar.

Another advantage of the Malone mower is the design of the lift arm brackets on the headstock, allowing a single operator to mount the mower onto the tractor quickly and easily without assistance.

Features

Quick Fit Blades | Drive Shield Module | Walterscheid Driveline | Mechanical Lock | Spring Flotation
Comer Cutterbar & Gearbox | Folding Front Cover | Swarth Wheels | Galvanised Folding Frame
